

Before starting the update, backup your customer files to a USB drive.

Go to the start menu and type **Paint Service** open.

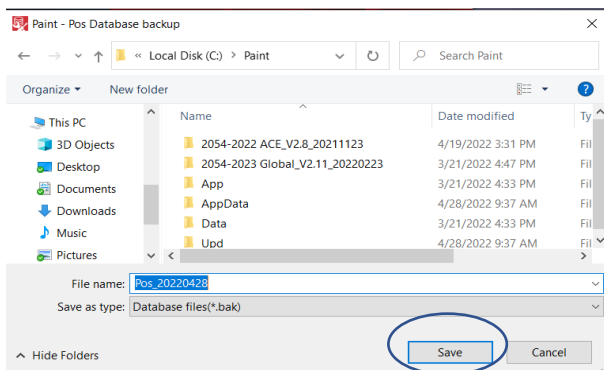

Click on POS DB backup.

Browse to your USB drive or to the Paint folder on the C drive until you can find a USB.

Select Save

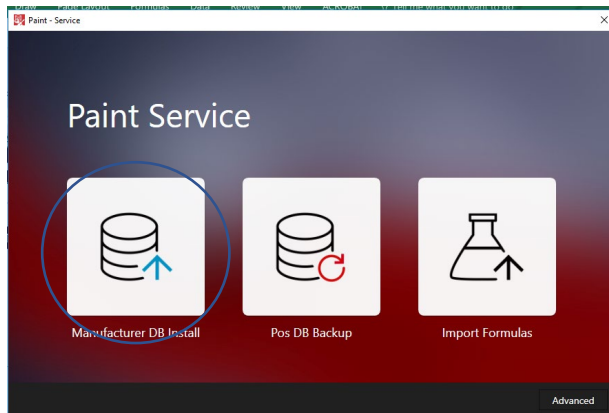

Download the file that was emailed to you. Save it to the Paint folder.

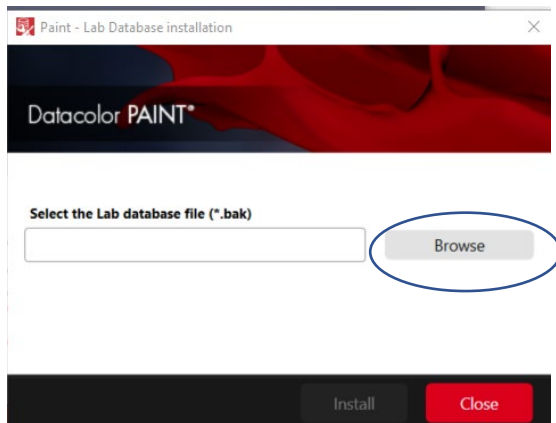

If you received your update on a USB drive, copy the file to the Paint folder.

Right click on the file and Extract.

Go to the start menu and type **Paint Service** open.

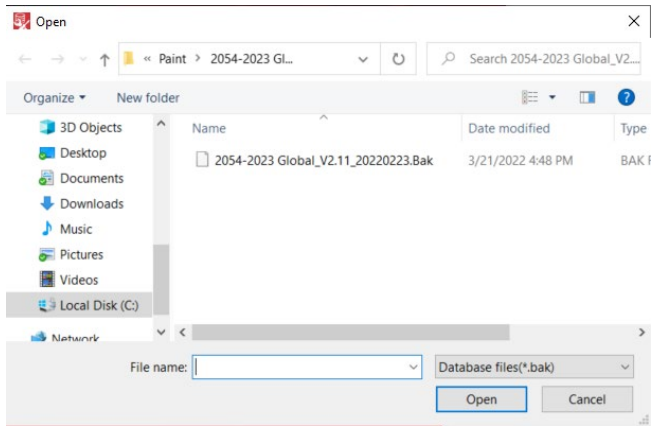

Select Manufacturer DB install.

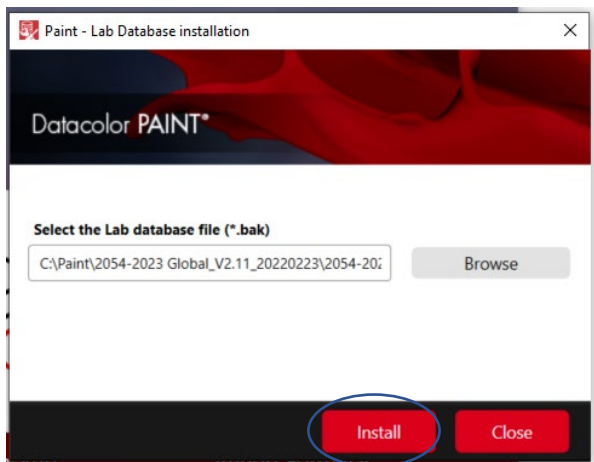

Browse to the Paint folder on the C: drive. Double click on the file you downloaded.

Your file name will be different from this example.

Select Install.
